

## Preface

Our Aim is to promote and establish Educational institutions committed to launching and practicing innovative learning methods in the fields that has a bearing on accelerating development in the field of education. In sharp focus in enriching knowledge, skills and attitude of individuals, particularly through nurturing of individual giftedness amongst children and youths thereby creating in them quality of good citizenship and enabling leadership and who in turn could impact social and other societal changes.

And to establish, setup, and run in any part of India education institutes, Study centre, oral coaching classes, where in professional, technical, vocational or higher education in every field of science, commerce, arts, management, engineering. Agriculture, law, banking, insurance, finance, medicine, hospitality, tourism, computers, yoga, Nature therapy or any other type of education be impacted by conducting regular and part time classes.

It is an active method of learning where students gain mastery through the application of their knowledge rather than rote memorization

## ➤ INTRODUCTION

An educational institution performs a significant function of providing learning experiences to lead their students from the darkness of ignorance to the light of knowledge.

There are several reasons for doing this:

- to achieve existing academic goals in a more productive way. This could mean using technology to facilitate better learning outcomes, such as higher quality student work or higher completion rates within existing academic goals, or, by enabling greater efficiency in the use of an instructor's time, through enabling the instructor to handle more students without losing quality in the learning.
- to achieve new academic goals that are required in a digital society, such as knowledge management, independent learning, collaborative learning, and IT skills embedded with-in a subject domain.
- In sharp focus in enriching knowledge, skills, knowledge and attitude of Individuals.

## ➤ *Help Students Explore Their Creativity*

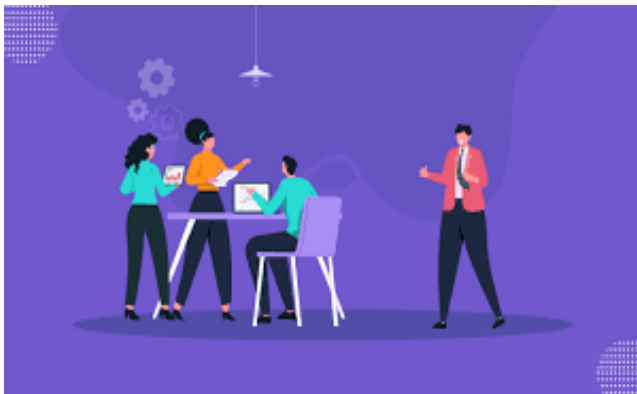

One of the most positive examples of innovation in teaching and learning is helping students explore their creative aspects freely. If you're teaching a particular topic in the class, or a practical session is going on, let the students come up with their creative ideas.

The more you encourage their creativity, the more powerful their imagination gets. Irrespective of the topic being taught, Creativity gives room to the students to independently express their thoughts and feelings, explore the world beyond and master a true sense of self-awareness.

## ➤ ORAL COACHING CLASSES

The objective of Coaching Scheme is to impart training to the students to equip themselves to pass the examination and develop professional skills in management accounting. A student eligible for admission to a course has to undergo and complete Coaching for the relevant course.

### ADVANTAGES:

Right guidance.

Special Attention.

New method of learning and use of technology.

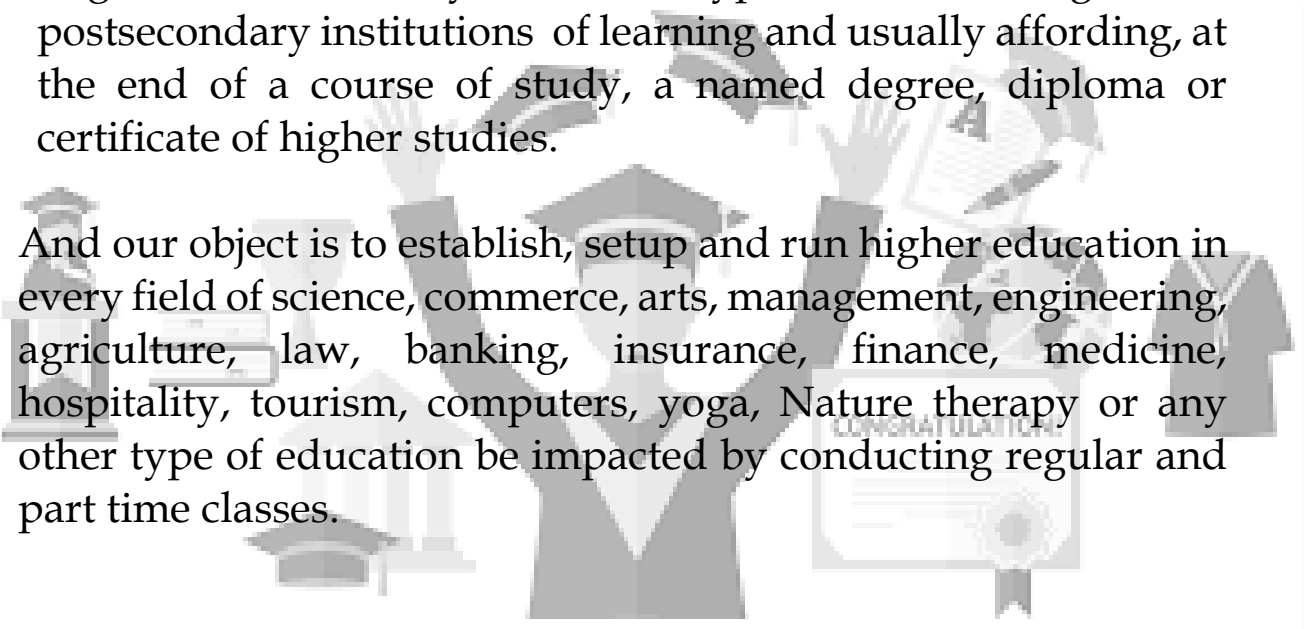

The utilization of extra time.

Students can cover specific subjects.

## ➤ HIGHER EDUCATION

higher education, any of various types of education given in postsecondary institutions of learning and usually affording, at the end of a course of study, a named degree, diploma or certificate of higher studies.

And our object is to establish, setup and run higher education in every field of science, commerce, arts, management, engineering, agriculture, law, banking, insurance, finance, medicine, hospitality, tourism, computers, yoga, Nature therapy or any other type of education be impacted by conducting regular and part time classes.

➤ *Full time and Part time classes*

Our Objective is to Establish, setup and run in any part of India education institutes or any other type of education be impacted by conducting regular With a litany of educational institutes also comes the option of a variety of modes of education - full-time, part-time, distant, online, you name it. And with the variety also comes the dilemma of what to choose.

Each of these modes has its own merit, enough to confuse the ambivalent student on which would be the preferable choice. The most practical response to any such query is “it depends on your situation really”

## ➤ *INNOVATIVE TEACHING & LEARNING METHODS*

We provide an innovative Social work education experience for students. The methodology followed aims to develop professional aptitude, subject clarity, interpersonal skills, communication skills, reflective and critical thinking, data collection and management skills, conflict resolution skills, skills for working in organizations, and skills in negotiation among students.

The activity oriented and participatory method creates an inclusive platform for students from diverse background.

## ➤ COMPUTER TRAINING PROGRAMMES

Computer Training is beneficial even if a student does not want a career related to computers. The functions of computers have increased dramatically over the past decade. Knowing the working of a computer will benefit students professionally.

Computer Courses have several benefits. Increased Employability is one of the main advantages. Most companies are looking for employees who can contribute in more than one way. Computer or system-knowledge is one of the key criteria for job placements.

Computer Training Programs are vital parts of most education programs. They are important to make a student future-ready.

## ➤ BEAUTICIAN COURSE AND SEWING TRAINING PROGRAMME

With the spreading of beauty and health consciousness in rural area too, many enthusiastic women of various mandals are learning beautician courses to get self-employment in an easy manner.

Our aim is to establish, setup, and run educational institutes and providing education and trainings related to beautician's courses.

The women are trained on sewing and stitching through a seven day residential program by the experienced trainers. These women are also taught the basics of sewing machine repair and maintenance in the program.

## CONCLUSION

*In conclusion, the sole purpose of our Company not be only to make profits but to establish and promote Educational Institutes and care about the community as well as the environment, because after all, they use the resources of the community to make their profits. Companies that do not care, act responsibly, or are not ethically driven, are less likely to survive in the long run*

*Only in this way can we provide the valuable learning environments that youth need while, at the same time, utilising the skills of all productive members.*

*Education is important to everyone as it gives shape to people's life; it affects how we act, think, responds and gives path to life. There is always a solution for any problem if anybody truly want to get rid of that problem. It is not easy to have higher education but it is not impossible to get it.*
